Rushmore Buildings...the perfect solution to cover whatever you value.

Monotube Buildings

The Monotube Rushmore Building has been constructed from 2 3/8-in. to 3-in. 12-gauge tubing to create a strong, secure environment for a number of applications including machinery, commodities and general warehousing, to name a few.

Benefits of the Monotube Building

- Available in widths of 24-ft. and 30-ft. with 6-ft. increments in length and 36-ft. with 5-ft. increments in length
- Easy to assemble
- 12.5 oz. woven high-density polyethylene coated fabric
- Connecting hardware is zinc-plated to resist corrosion
- Ratchets offer a secure tiedown
- Cover draws over the framework in minutes

30 X 30 Small Garage

30 X 60 Large Garage

36 X 80 Universal Equipment Storage

36 X 60 Machine Storage

Truss Buildings

Engineered to meet IBC Code requirements of 90 mph wind and a 40 psf snow load, this tubular steel truss building is the workhorse of Rushmore Buildings. Designed to protect your investments from the fiercest environment, the Truss Rushmore Building is the only solution for the smart buyer. The Truss building provides a safe, secure environment for any application from machinery to livestock.

Benefits of the Truss Building

- Can be built in widths of 44, 45, 50, 60, 70 and 80-ft.
- 12.5 oz. woven high-density polyethylene coated fabric
- Connecting hardware is zinc-plated to resist corrosion
- Ratchets offer a secure tiedown
- Cover draws over the framework in minutes
